Welcome to Our Spring Edition

Stories of Hope, Resilience & New Beginnings

Dear Friends and Supporters,

As we step into 2026, we are filled with gratitude for the incredible journey we continue to share with our children and community. This quarter has been marked by remarkable stories of transformation, celebration, and growth.

In this edition, we bring you heartwarming tales that embody the spirit of Karm Marg. From a young boy finding his voice through digital literacy to our community coming together for our very first Ultimate Frisbee tournament, these stories remind us why we do what we do.

We also pause to honor those who have been the backbone of our family, celebrating decades of love and dedication. Join us as we reflect on the past three months and look forward to the possibilities ahead.

Flying High with Team Spirit

*First Ultimate Frisbee
Tournament | March 22, 2026*

On March 22, 2026, Karm Marg celebrated a historic milestone—our very first Ultimate Frisbee Tournament! This exciting event was made possible through our wonderful partnership with Yultimate and Empower Foundation, who have been instrumental in bringing this inclusive sport to our community. Ultimate Frisbee is more than just a game—it's a sport built on the principles of Spirit of the Game, fair play, and mutual respect. What makes it truly special is its mixed-gender format, where boys and girls play together as equals on the same team.

The tournament brought an unexpected and heartwarming surprise: village women from our surrounding community joined in the games! Watching them run across the field, laughing and competing alongside our children, was a powerful reminder of how sports can break down barriers and bring people together.

Our children have been practicing for months under the guidance of dedicated coaches from Yultimate. The tournament showcased not just their athletic skills, but their growth in teamwork, communication, and sportsmanship.

Special thanks to Anima and Mona from our Frisbee Program for their tireless efforts in training and encouraging our young athletes. Their dedication has helped build confidence and team spirit in every child who participated.

"When village women joined our children on the field, we witnessed the true spirit of inclusion—barriers dissolving through the simple joy of play."

Finding His Voice: Tushar's Journey

A Story of Transformation and Dedication

When Tushar first arrived at Karm Marg, he struggled to express himself. Speech difficulties had made him withdrawn, hesitant to connect with others. But everything changed when he discovered the digital literacy program.

Under the patient guidance of his mentor, Veena Lal, Tushar began finding new ways to communicate. What started as simple computer lessons evolved into something transformative. Veena recognized his potential and encouraged him to explore social media management.

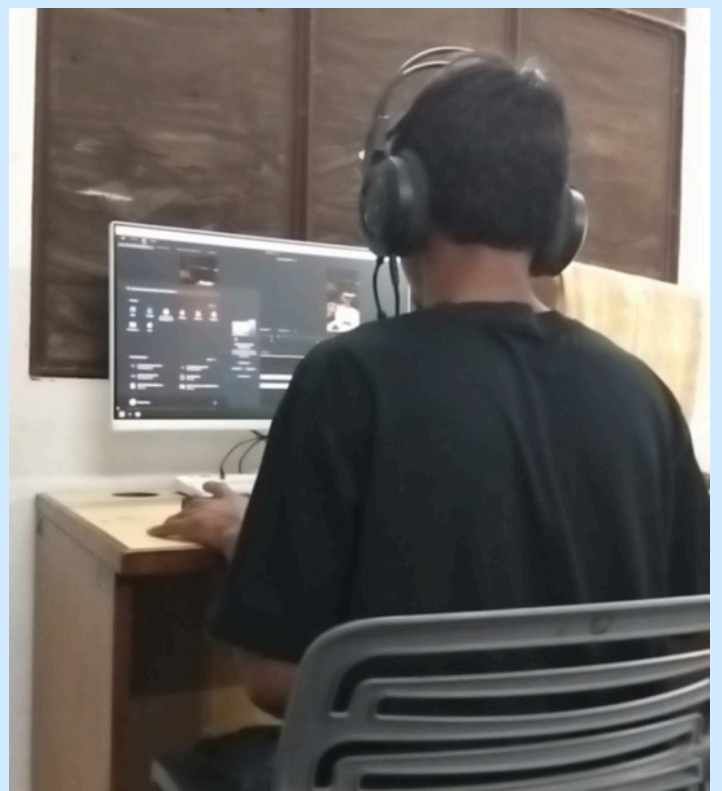

"He would spend hours learning, practicing, never giving up," recalls Veena. "His determination was remarkable. When words failed him, he found his voice through digital expression."

*"When I couldn't speak my thoughts, I learned to write them. Now I help Karm Marg share its stories with the world."
— Tushar*

Three years of dedicated effort have transformed Tushar from a shy, struggling child into a confident young man who now manages Karm Marg's social media presence. His journey exemplifies the power of patient mentorship and the right opportunities.

Today, Tushar creates content, engages with followers, and helps share the stories of other children at Karm Marg. His speech has improved dramatically, but more importantly, he has found purpose and belonging.

Veena Lal continues to mentor him, proud of how far he has come. "Tushar teaches us that every child has a unique way of shining," she says. "We just need to help them find it."

Honoring Sunita's 26 Years of Love and Service

A Heart That Nourished Generations

In the heart of every home, there is someone whose presence makes everything feel warm and safe. For Karm Marg, that person has been Sunita—our beloved cook who joined us in 1999 and became so much more than someone who prepared meals.

When Sunita first walked through our doors over two decades ago, Karm Marg was just beginning its journey. She witnessed countless children arrive, grow, and flourish. Through her cooking, she didn't just feed hungry stomachs—she nourished souls. Every chapati she rolled, every dal she stirred, carried with it an unmeasurable ingredient: love.

For many of our children who came from difficult backgrounds, Sunita's kitchen became a sanctuary. She remembered everyone's favorites, celebrated their birthdays with special treats, and offered a listening ear along with a warm meal. Her consistency and care provided stability in lives that had known too much uncertainty.

As we bid farewell to this extraordinary woman, we celebrate not just her service but her spirit. Sunita taught us that nurturing comes in many forms, and that the simplest acts of care can transform lives.

The children she fed have grown into confident young adults. Many return to visit, and their first stop is always the kitchen to embrace the woman who made Karm Marg feel like home. Her legacy lives on in every child who learned that they matter, that they deserve care, and that they are worthy of love.

Thank you, Sunita, for being the heart of our home. Your warmth will forever be remembered.

Sunita's Journey Highlights

1999: Joined Karm Marg as first cook
Legacy: Nurtured generations of children
2026: Retirement after 26 years of service

Home Schooling Initiative

At Karm Marg, we believe every child deserves access to education, regardless of their circumstances. Our Home Schooling Initiative supports children who cannot attend formal school due to health conditions, developmental needs, or other challenges.

Under the dedicated guidance of mentor Sweta and teacher Suman, these children receive personalized attention through hands-on learning experiences. Rather than traditional textbook methods, our approach emphasizes practical activities, creative projects, and real-world applications that engage each child's unique learning style. The program has shown remarkable results, with children developing confidence and essential life skills alongside academic knowledge.

"Every child learns differently. Our job is to find the key that unlocks their potential."

— Suman, Home Schooling Teacher

Pathways to Independence

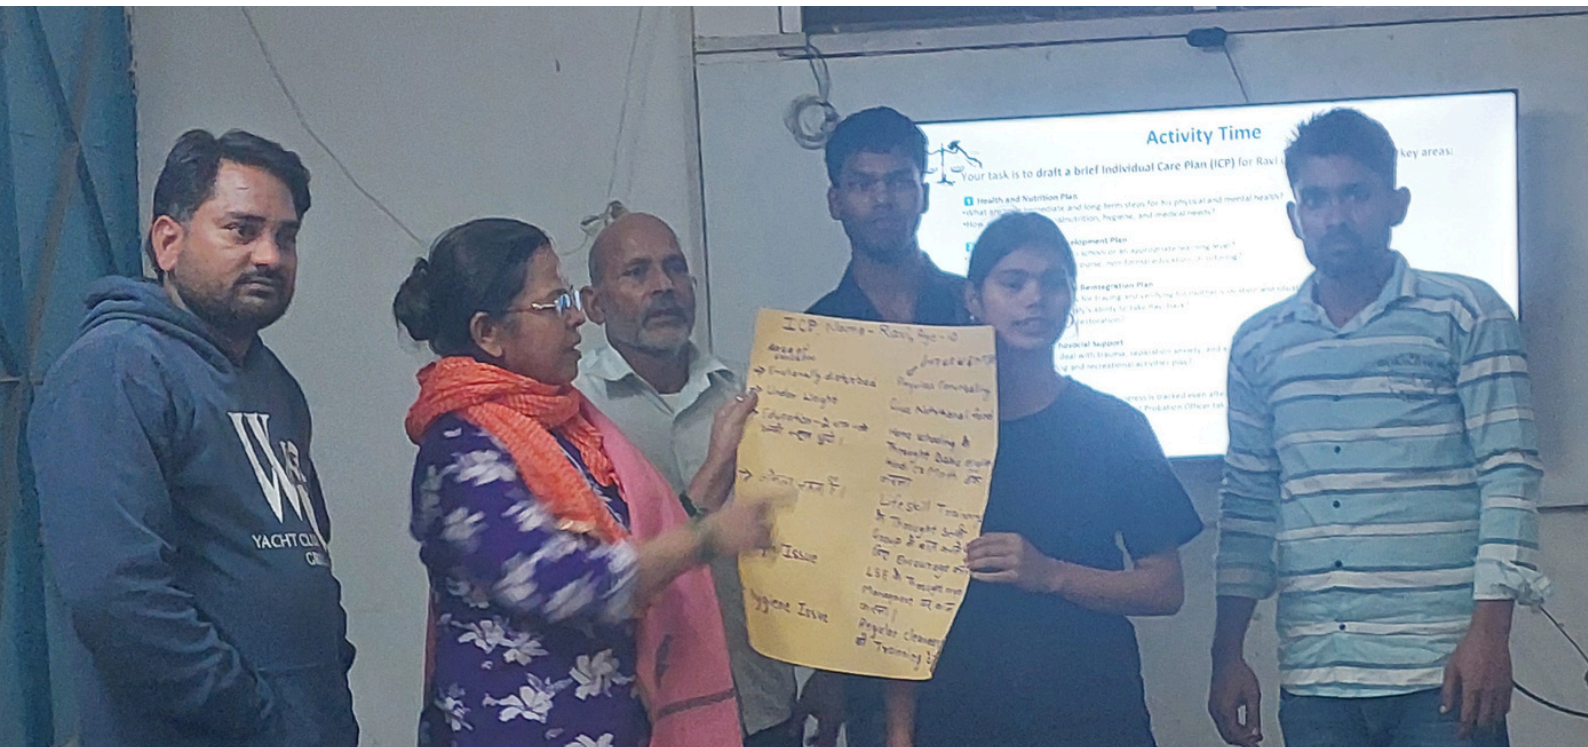

Our After Care & Care Leavers Program prepares youth for the transition to independent living. Through the Leader Mentorship Program, young adults aged 18 and above receive guidance on life skills, career planning, financial literacy, and emotional support.

Mentors work closely with each care leaver, helping them navigate challenges of adulthood while maintaining the supportive community they've known at Karm Marg. From job placement assistance to housing guidance, we ensure no one faces this journey alone.

Quarterly Highlights

Building Capacity, Strengthening Care

This quarter saw significant investment in staff development and partnerships. Our team participated in comprehensive training on the Juvenile Justice Act and Child Care Institution compliance, ensuring we maintain the highest standards of child protection and institutional governance.

Benoy led an insightful session on handling difficult behaviour, equipping caregivers with trauma-informed approaches. The workshop with Sanved introduced dance movement therapy techniques, opening new pathways for emotional expression and healing among our children.

We strengthened our network through the APPI Partner Meet in Kolkata, connecting with fellow organizations committed to child welfare. The Rajiv Event brought joy to children with special needs and disabilities, celebrating inclusion and community.

Community & Cultural Activities

Enriching Lives Through Learning & Celebration

This quarter brought a wonderful array of enriching experiences for our children, blending culture, creativity, health, and play.

Our visit to the International Book Fair opened new worlds of imagination, with children exploring diverse literature and discovering their love for reading. The ArtReach India excursion to Humayun's Tomb combined history with artistic expression, as children sketched and learned about Mughal architecture.

Holi celebrations were extra special this year! Children participated in making natural, eco-friendly colours from flowers and herbs before the joyful festival celebration filled our campus with laughter and vibrant hues.

The STEM Kit Event by Protsahan sparked curiosity in science and technology through hands-on experiments and building activities. Children eagerly assembled circuits, explored robotics basics, and discovered the joy of scientific inquiry.

Health remained a priority with our comprehensive Medical Camp and Annual Health Check-up, ensuring every child received thorough examinations and necessary care.

The Anima & Mona Frisbee Program continued building teamwork skills while keeping children active and engaged in outdoor play.

"Every activity opens a door to new possibilities. Watching our children explore, create, and celebrate together reminds us why community matters."

Help Us Build a Safer Home

Challenges & Immediate Needs

Our beloved Karm Marg campus has been a sanctuary for children for over 25 years. Like any well-loved home, it now needs essential repairs to remain safe and functional for the children who call it home.

The kitchen where Sunita and her successors have prepared countless meals needs structural repairs. Our toilet facilities require urgent sanitation upgrades. Most critically, the electrical wiring throughout the building has aged beyond safe standards and poses potential hazards.

We estimate these essential repairs will cost ₹5 lakhs. While this may seem like a significant amount, every contribution brings us closer to ensuring our children live in a safe, dignified environment.

Your support directly impacts the daily lives of our children. A well-maintained facility means better hygiene, reduced health risks, and a more comfortable learning environment. It means peace of mind for our staff and caregivers who work tirelessly to nurture these young lives.

We cannot do this alone. Our children depend on the generosity of supporters like you to maintain the home that shelters and nurtures them.

Every rupee counts. Whether you can give once or commit to monthly support, your contribution will help us address these urgent needs and continue providing quality care. To donate, please visit our website or contact us directly. All donations are eligible for tax exemption under Section 80G.

Thank you for being part of the Karm Marg family and helping us keep our children safe.

How You Can Help Today

Small or big—every help matters.

Your support can build safe toilets and restore dignity.

Donate or connect us with CSR partners.
